Georgia			Ga. Dept. of Transportation conducting some events	

State	Contact	Contact Information	Completed Events/Projects	Future Events/Projects
Hawaii	<p>Larry Lau, Deputy Director of the Environmental Health Administration Dept of Health Hawaii State Department of Health 1250 Punchbowl Street Honolulu, HI 96813</p> <p>Keith Kawaoka, Hazard Evaluation of Emergency Response Office (same address)</p> <p>Genevieve Salmonson, HI DOH Compliance Assistance Ombudsman</p>	<p>laurence.lau@doh.hawaii.gov 808-586-4424</p> <p>keith.kawaoka@doh.hawaii.gov 808-586-4249</p> <p>g.salmonson@doh.hawaii.gov 808-586-4528</p>	<p>Kaizen:</p> <ul style="list-style-type: none"> 9-21-08 – Hazard Evaluation & Emergency Response Program completed an event. 30-day follow-up on Kaizen event completed 22-20-08: Lean presentation, in conjunction with the consultant, to Health Branches. <p>Attended 2009 Lean Government Exchange</p>	
Idaho	<p>Mary Anderson Dept of Environmental Quality Air Quality Division 1410 N. Hilton Boise, ID 83706</p>	<p>mary.anderson@deq.idaho.gov (208) 373-0202</p>	<p>Kaizen:</p> <ul style="list-style-type: none"> Air permitting program (2006) <p>Kaizen: Wastewater enforcement program (May 2007)</p>	
Illinois			<p>Kaizen:</p> <ul style="list-style-type: none"> Minor source air construction permits (June 2007); Genevieve Damico, EPA, region 5 will attend 	

<p>Indiana</p>	<p>Thomas Easterly, Commissioner Indiana Department of Environmental Management</p> <p>Rick Bossingham, Assistant Commissioner, Office of Pollution Prevention & Technical Assistance (Lean contact person)</p> <p>Kristin Brier, Office of Pollution Prevention & Technical Assistance, Continuous Improvement Coordinator</p>	<p>317-232-8611</p> <p>rbossing@idem.IN.gov 317-233-6658</p> <p>Kbrier@idem.in.gov 317-234-2754</p>	<p><u>Land:</u></p> <ul style="list-style-type: none"> • State Cleanup held a value stream mapping event 5/4—5/8. Several kaizen bursts were identified and an implementation plan was developed, including additional process mapping events. • Geology held an event from 9/16—9/21 looking at how new technology affects the activities necessary to review and transmit technical documents. Activities vary by requesting program and by individual. Standard methods needed that will provide the most efficient use of staff time and enhance the consistency of reviews. Implementation was developed and is being executed. • A value stream and process mapping event was conducted 10/6—10/8 for Emergency Response (ER). Improved processes for transferring information and site responsibility from ER staff to compliance and remediation programs in the Office of Air Quality (OAQ), Office of Water Quality (OWQ), and Office of Land Quality (OLQ) were determined. Key improvements included more clearly-defined criteria for when the transfer occurs and single points of contact within each program. Implementation plan is currently being executed; completion is anticipated by the end of 2009. <p><u>Water:</u> Process Mapping event for wetlands water quality certification was conducted 5/18—5/22. An improved process for reviewing, making a determination, and issuing water quality certifications was designed. Key improvements included electronic routing and notices; revising the application for clarity and writing instructions for applicants to assist with completing the application; earlier rejection of incomplete applications (missing a key component from the U.S. Army Corps of Engineers); and increased use of Commissioner's Discretion. 30-day and 60-day implementation plan meetings have been held; full implementation has been delayed by the loss of key staff in this very small working group. At full implementation, the future state shows savings of up to 28 days in total processing time.</p>	<ul style="list-style-type: none"> ▪ Concentrated Animal Feeding Operations (CAFOs) / Combined Feeding Operations (CFOs) lean event will be held 10/27—10/29. ▪ OAQ's Permits Branch Administrative Section will be process mapping public notice and intake processes 10/27—10/29. ▪ Office of Pollution Prevention & Technical Assistance will process map the application and review process for the Governor's Award for Environmental Excellence 11/30—12/4. ▪ All offices are putting together plans for lean events in 2010.
----------------	---	---	---	---

<p>Indiana</p>			<ul style="list-style-type: none"> • A process mapping event for waste load analyses in the Permits Branch was conducted 6/22–6/24. A stabilized process for completing the waste load analyses was determined, and bottlenecks in the process were identified and addressed. A 30-day implementation plan meeting was held; the implementation plan is being executed and additional check-in meetings will be held prior to the end of 2009. • A process mapping event for the Compliance Branch data management and quality assurance was conducted 7/27–7/31. An improved process for managing and assuring the quality of data from wastewater facility Discharge Monitoring Reports (DMRs) was designed. Key improvements included more clearly-defined roles and responsibilities for staff; improved communication with wastewater inspectors to provide better assistance to facility operators; and the development of a process to clean-up old data violations. 30-day check-in was held and additional meetings are planned. Full implementation, including some key long-term items, will be completed by July 2010. <p><u>Air:</u></p> <ul style="list-style-type: none"> • The Compliance and Enforcement (CE) Branch held two events this year. An enforcement case resolution process mapping/stabilization event was held 2/9—2/13. An integrated compliance and enforcement process was designed and implemented over the course of four months. The CE Branch also did a process mapping event for asbestos notification on 7/23 and 8/19. 30-day check-in has been held and a new process was implemented on 10/1. Potential time savings of 50% and a 45% decrease in process steps were identified. • The Permits Branch held a 3-day Kaizen Event from 8/25—8/27 to examine the rules applicability, calculations, and change documentation processes. Improvements in reference tools, manager meeting communication, branch-wide emails and updates, and development of templates and forms, and publication of 	
-----------------------	--	--	--	--

<p>Indiana</p>			<p>individual staff expertise are some of the items in the implementation plan. The 30-day check-in has been held.</p> <p><u>External Affairs:</u></p> <ul style="list-style-type: none"> • Process mapping for grants management was conducted 2/17—2/19. An improved process for managing and closing out grants IDEM receives from EPA and other federal agencies was designed. Key improvements included training additional accounting staff for complete the required FSRs (grant closeout documentation to EPA that has historically been submitted past deadlines) and holding grant project roll-out meetings with the agency Grants Coordinator, accounting staff, program staff who will be working on the project, and Media and Communication staff if involved. Implementation plan execution is complete; backlog of closeouts is cleared and kick-off meetings have been useful. • Process mapping for internal invoice handling was conducted on 5/26 and 6/1. A streamlined process with fewer handoffs was designed. The implementation plan was completed by July. 	
<p>Iowa</p>	<p>Teresa Hay McMahon, Performance Results Director Iowa Department of Management State Capitol Building Des Moines, IA 50319</p> <p>Wayne Gieselman Administrator, Environmental Services Division IA Department of Natural Resources</p>	<p>teresa.mcmahon@iowa.gov 515-281-6537</p> <p><u>wayne.gieselman@dnr.iowa.gov</u></p> <p>chris.vangorp@dnr.iowa.gov</p>	<p>State of Iowa has completed nearly 100 Lean and Six Sigma governmental events and projects. Sixteen of the earliest projects are listed below. See the website for the full listing.</p> <p>Kaizen:</p> <ul style="list-style-type: none"> • Air quality complex permitting (2004) • Air quality new source construction permits (2003) • Animal feeding operations construction permits (2005) • Clean water construction project permits (2004) • Floodplain permits (2005) • Land acquisition (2005) • Landfill permits (2004) • Leaking underground storage tank (LUST) corrective action decisions (2004) 	<p>Upcoming events listed on website: http://lean.iowa.gov DNR-Flood Plain project review (9-09) Accounts Receivable (11-09)</p>

<p>Iowa</p>	<p>Chris Van Gorp IA Department of Natural Resources Lean Contact</p>		<ul style="list-style-type: none"> • Legal service: administrative orders (2005) • Magazine production (2005) • Manure management plans (2005) • NPDES wastewater permits (2004) • Sovereign lands permits: environmental reviews (2004) • State revolving fund (SRF) cross-cutters (2006) • Vehicle fleet management (2005) • Air Quality Stack Testing (8/08) • Flood Plain Mapping: Established a process to organize a flood plain mapping system for the State of Iowa. (2009) • Attended 2009 Lean Government Exchange 	
<p>Kansas</p>			<p>Kaizen:</p> <ul style="list-style-type: none"> ▪ Participated in water quality standards event with Region 7 (2007) ▪ Participated in wastewater permit event with Region 7 (2008) 	

<p>Kentucky</p>	<p>Ronald Price, Manager Resource Planning and Program Support Branch Kentucky Division of Water</p>	<p>Ronald.Price@ky.gov 502-564-3410</p>	<ul style="list-style-type: none"> • The Division of Water had 8 staff members attend Lean Certification Training at the University of Kentucky in coordination with Toyota Motor Corporation in January, February, and March 2009. • The division participated in 5-day Nonpoint Source 319(h) Value Stream Mapping conducted by University of Kentucky. • The division has value stream mapping activities scheduled for May 2009. • The Division of Water’s Lean team is developing a Lean Strategy for the division and conducting training in 8-Step Problem Solving in May 2009. • Division of Water is developing a MOA with University of Kentucky to hold “Lean Executive Leadership Institute” event • Followed by a 319(h) VSM conducted by UK to set groundwork for 319(h) Kaizen event • 11-17-08 – Department of Water expected to conduct a “Dedicated Lean Executive Leadership Institute” with the University of Kentucky to build support for lean activities in the department cabinet an the governor’s office • In November 2008, Division of Water conducted a “Dedicated Lean Executive Leadership Institute” with the University of Kentucky to build support for lean activities in the division, department, and cabinet. • The Division of Water had six staff members attend Lean Certification Training at the University of Kentucky in coordination with Toyota Motor Corporation in January, February, and March 2009. • The division participated in 5-day Nonpoint Source 319(h) Value Stream Mapping conducted by University of Kentucky in May 2009. 	<ul style="list-style-type: none"> • Division of Water’s Lean Team is developing lean training curriculum. FY2010 operational plan includes a target of training at least twenty percent of staff on lean concepts. • Division of Water’s Lean Team will develop an intranet page as a “LEAN Portal” to provide staff with Lean tools and updates.
------------------------	--	--	--	--

KY (cont'd)			<ul style="list-style-type: none">• The Division of Water's Lean Team is developing a Lean Strategy for the division.• In June 2009, three staff attended the Lean Government Exchange in Des Moines, Iowa.• Division of Water's Lean Team used lean principles to develop the division's annual operational plan for FY2010.• Division of Water's Lean Team conducted in-house training classes on "Lean 101" in August and September 2009.	
--------------------	--	--	---	--

<p>Maine</p>	<p>David Littell, Commissioner Department of Environmental Protection</p> <p>Deb Garrett, Deputy Commissioner</p>	<p>David.P.Littell@maine.gov 207-287-5869</p> <p>Deborah.n.garrett@maine.gov</p>	<p>Lean and Energy Pilot Project concept well received and awaiting formal funding approval Proposal to integrate pilot process in other states in similar standing- smaller scope depending on funding</p> <ul style="list-style-type: none"> ▪ Completed participation in a Lean 101 training provided by the Manufacturing Extension Partnership (MEP) in Maine (March 2008) ▪ Maine DEP has initiated a Lean and Energy Pilot Project in partnership with EPA Region 1. Maine and other New England states are working in partnership with the Manufacturing Extension Partnership (MEP) to identify mid-sized manufacturers for Lean/Energy events for up to six pilot projects throughout New England. ▪ USEPA's "The Lean and Energy Toolkit" (link below) will be used to guide the pilots. Maine DEP, who has spearheaded the project as a whole, will identify and work with two companies for its addition to the New England-wide project. ▪ In addition to the goals of fully integrating the energy component to MEP's "lean" field work with companies and improving industry efficiency and reducing energy costs for Maine's manufacturers, another goal of the project is to roll out the pilot process to states in other USEPA regions for implementation. 	<p>Evaluating how to use Lean internally (ongoing)</p> <p>Currently interacting with a large state agency group who are incorporating lean programs</p>
<p>Maryland</p>	<p>Stephen L. Pattison Assistant Secretary</p>	<p>SPattison@mde.state.md.us 410-537-3086</p>	<ul style="list-style-type: none"> • Lean presentation at the permit writer's Fall 2008 forum • Lean presentation to senior staff in Spring 2009 • Attended 2009 Lean Government Exchange 	
<p>Massachusetts</p>	<p>Phil Weinberg</p>	<p>Philip.Weinberg@state.ma.us</p>		

<p>Michigan</p>	<p>Steve Chester, Director Michigan Department of Environmental Quality</p> <p>Lynn Fiedler, Acting Assistant Division Chief (MI Lean Contact Person) Air Quality Division Department of Environmental Quality Lansing, MI</p>	<p>fiedlerl@michigan.gov 517-373-7087</p> <p>Lean website: http://www.deq.state.mi.us/aps/miparp.shtml</p>	<p>Air Permitting Process initiatives to improve regulatory climate in Michigan Program improvements in AQD:</p> <ul style="list-style-type: none"> • 1- VSM/Lean processing • 2-Continuous Workload Analyses • 3-Customer Service Initiatives • Also have revised public hearing process <p>VSM:</p> <ul style="list-style-type: none"> • Air construction permitting: Permit to Install application review process (2004) (Results: Decreased time needed to process all air construction permits from 167 days to 59 days. Initial application administrative completeness rose from 82 to 95 percent.) • Land and Water Management Division's consolidated (e.g., wetlands, inland lakes and streams, submerged lands) permitting process (2005) Result: Over half of all the permits not requiring public notice are being issued within the initial 30 day application period. The process has freed up staff time to address more compliance issues.) Log letter response process (2006) - 	
------------------------	--	---	---	--

			<p>Process for responding to letters from the public sent to the Governor or DEQ Director was redesigned. The new process, which relies the DEQ email system, increases efficiency through the early involvement of pertinent staff, the reduction in wait time throughout the review of the draft response, and the tracking of the assignment. Storage of the initial letter and associated DEQ response is now done electronically.</p> <p>May 2008 – Planning an event in stormwater permitting</p> <p>Groundwater Permitting Process initiatives to improve regulatory climate in Michigan</p> <p>Program improvements in Water Bureau:</p> <ul style="list-style-type: none"> • 1-VSM/Lean processing <p>The revised permitting process involves the local health department and township officials early in permit application review process. On-site data in the evaluation of site suitability for drain fields is now required. A recommendation for improved communication and coordination is to consolidate all sanitary sewage (<20,000 gallons per day) permit reviews into a single Water Bureau unit.</p>
