

An interactive web application that connects community users to EPA's Green Infrastructure Tools and Resources

WHAT IS GIWiz?

GIWiz is an interactive, online information portal.

It provides communities with quick and easy access to EPA's Green Infrastructure tools and resources.

WHY DO I NEED GIWiz?

Hundreds of tools and resources have been published to aid Green Infrastructure practitioners in making management, implementation, and installation decisions.

Practitioners often don't know where to start or how to find what they need.

Different types of users have differing needs specific to their context, objectives, and constraints.

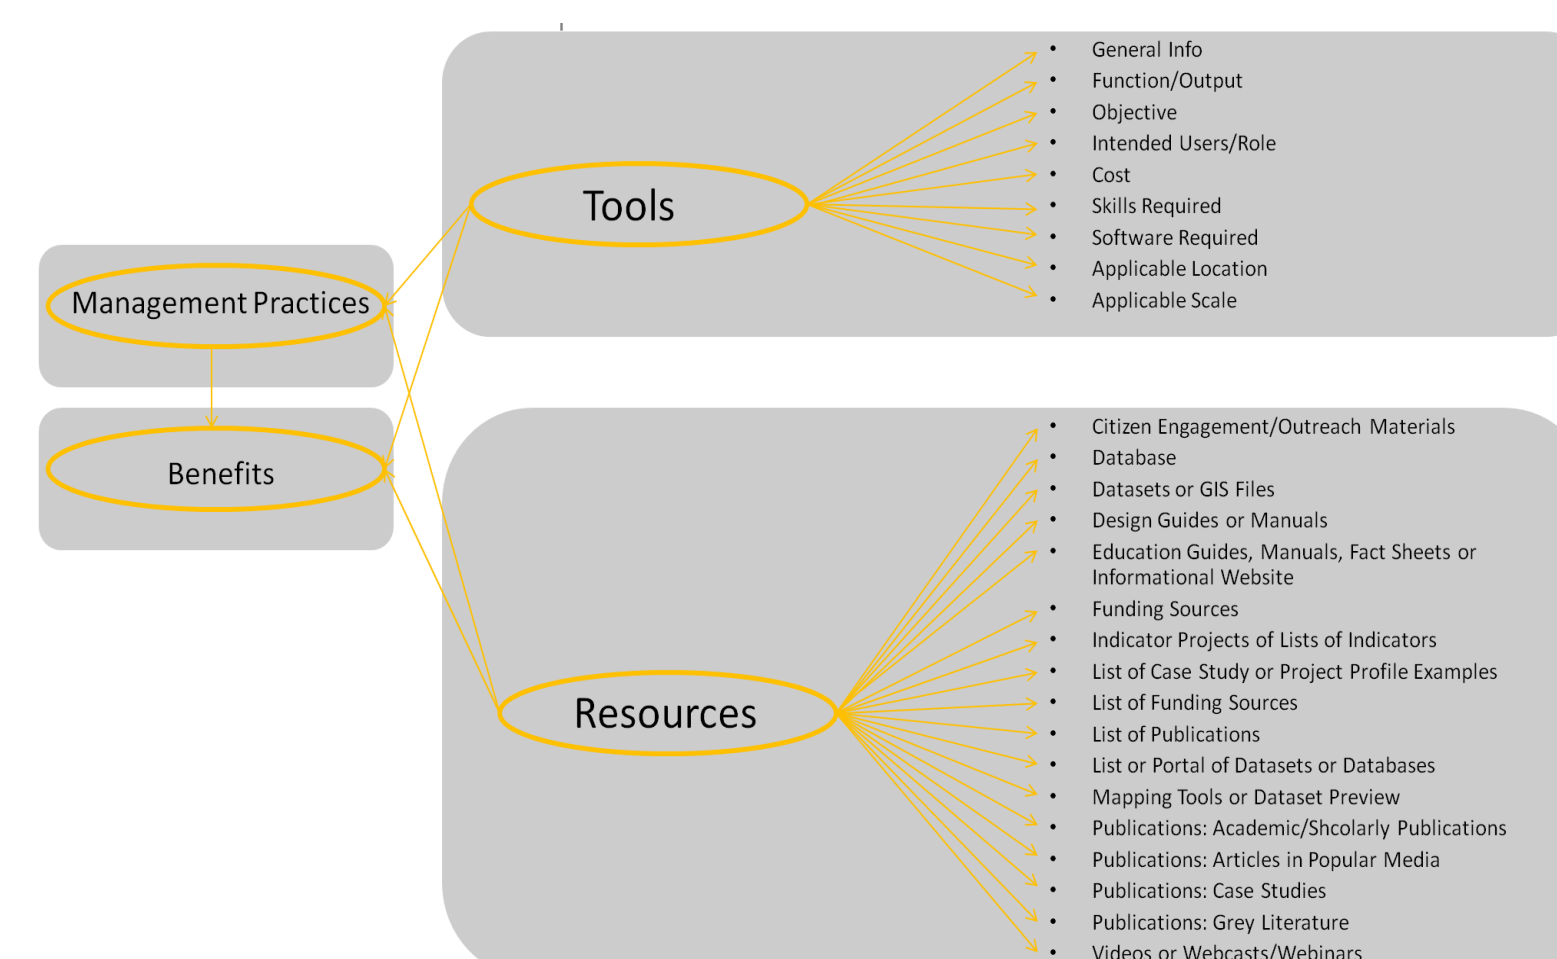

WHAT'S INCLUDED?

GIWiz provides an intuitive way for users to quickly search for EPA's Green Infrastructure tools and resources.

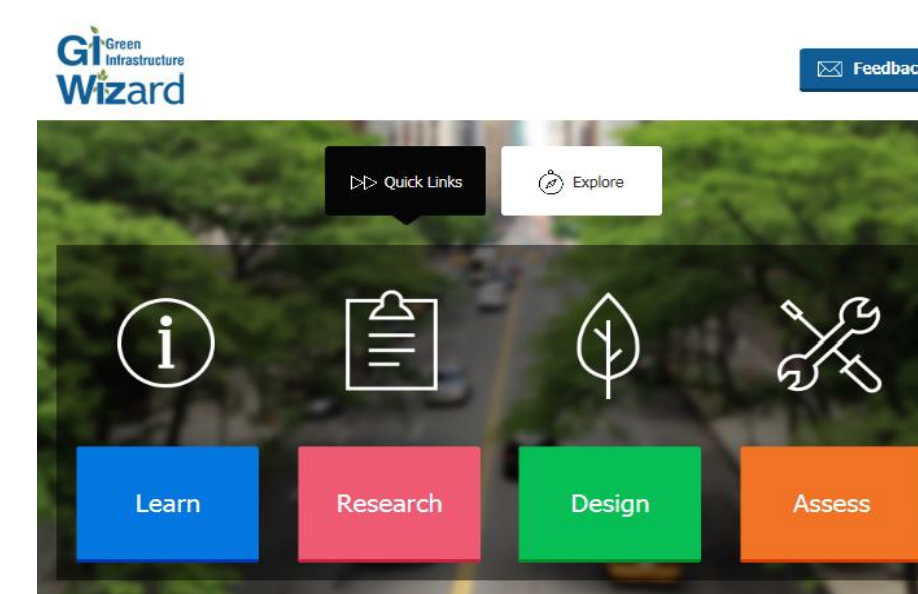

Designed to match the usability and sophistication of widely used web-based "wizards," GIWiz provides users with seamless access to hundreds of existing EPA Green Infrastructure resources including models and calculators, case studies, design guidance, and financing options.

DECISION CASES INFORM GIWiz

Goals and objectives are associated with attributes of the tools and resources within the underlying database.

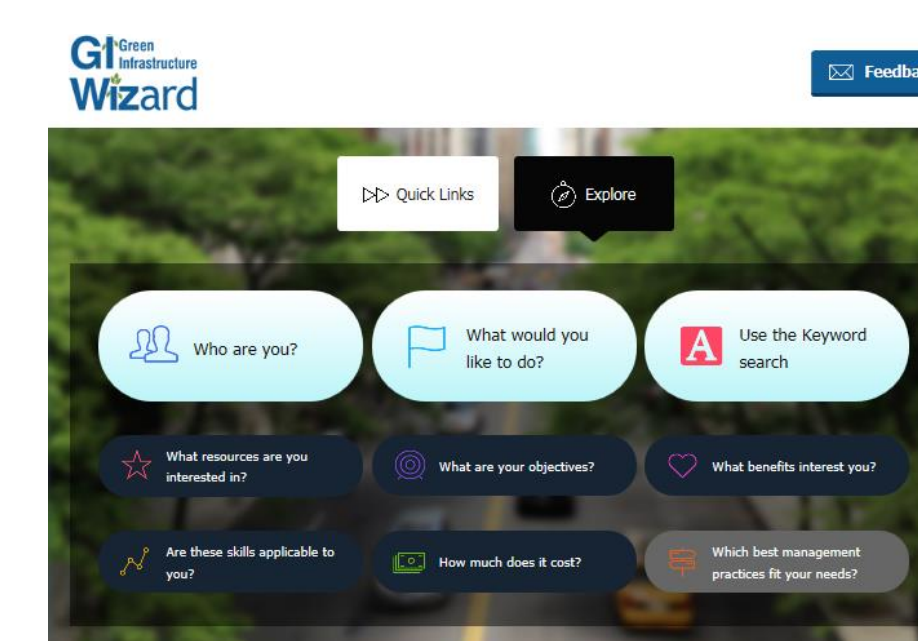

HOW CAN I USE GIWiz?

'Quick Links' Wizard

Simple, two-click interface with pre-sorted reports organized by decision objectives.

Use the Quick Links feature to access green infrastructure tools and resources, customized to a specific objective. Click the button that best matches your needs, and select the corresponding objective to view a tailored list of tools and resources.

'Explore' Search Engine

A guided, customizable search engine that can handle detailed queries based on the user's unique needs.

Use the Explore feature to access green infrastructure tools and resources, customized to your specifications. Answer any or all of the questions above by selecting one or more of the corresponding topics that interest you. At any point, click the "Show Results" button to view your customized list of results. Select as many, or as few, questions and corresponding topics as you would like. Click the "Clear Results" button to remove all previous selections and start over.

WHAT DO I GET?

GIWiz offers quick, direct access to Green Infrastructure tools and resources.

Users can produce customized reports that include links to the resources they want to utilize.

Output includes links to resources and other helpful information.

WHAT'S NEXT?

Research* on Decision Making for Communities and on Green Infrastructure to inform the wizard, such as:

- How do people want to find information?
- How are benefits of Green Infrastructure approaches communicated?
- What is useful?

We plan to further refine attributes, gap analysis of tools and resources against stakeholder/user defined needs, and test responsiveness to user perspectives. GIWiz content and benefits will also be expanded.
