

		ONE SENTENCE DESCRIPTION	BRIEF 2-3 WORD DESCRIPTION (e.g., planning & design, approved pending funding, out to bid, under construction)	SIMPLE DOLLAR AMOUNT (e.g., \$500K, \$3.2M)
State	Type	Description	Stage	Amount
Alabama	Wastewater	Uniontown- Replace wastewater treatment and collection system		\$20M
Alabama	Wastewater	Hayneville- wastewater treatment and collection system renovation		\$15M
Alabama	Drinking Water	Centre- Installation of GAC filtration system and relocation of drinking water intake structure		\$5M
Alabama	Wastewater	Triana- Wastewater collection system repairs and expansion		\$1M
Alabama	Wastewater	Bayou La Batre- Wastewater effluent outfall extension to further protect shellfish harvesting		\$5M
Alabama	Drinking Water	Marion- Upgrade drinking water treatment plant and distribution system		\$5M
Alabama	Wastewater	Childersburg- Wastewater treatment system upgrade		\$4M
			<b>Total \$ for state:</b>	<b>\$55,000,000</b>
Alaska	Drinking Water	Adak – Construct new water treatment plant for this remote Aleutian Island community. The community currently has no way to treat its source of surface water.	Planning and design	\$15M
Alaska	Drinking Water and Wastewater	Akiakchak – Completion of piped water and sewer system to provide first time service to the community. Only a portion of the homes in the community have running water and sewer.	Design	\$15M
Alaska	Wastewater	Anchorage - Upgrades and expansion of the Girdwood Wastewater Treatment Facility to meet existing and future flows.	Design	\$20M
Alaska	Drinking Water	Elim – Replace failing water storage tank that has resulted in water shortages, outages and rationing.	Planning	\$2M
Alaska	Wastewater	Hooper Bay – Enhance existing wastewater lagoon with sludge disposal facility and secondary treatment and hydraulic storage cell. Wastewater lagoon is undersized by about half.	Planning and design	\$15M
Alaska	Drinking Water	Juneau - Replace the water system within the Douglas Highway from the Juneau Douglas Bridge to Downtown Douglas at the Crow Hill pump station, approximately 8,500 feet of water system.	Final design and construction	\$3M
Alaska	Wastewater	Juneau - Wastewater treatment plant headworks upgrades for two wastewater treatment plants.	Final design and construction	\$5.5M
Alaska	Wastewater	Ketchikan - Replace failing water and sewer mains, including manholes.	Final design and construction	\$5M
Alaska	Drinking Water and wastewater	Kivalina – Provide unserved homes with individual household water and sewer. Homes currently lack any running water or sewer. Upgrade water treatment plant in support of in-home service.	Planning and design	\$5.5M
Alaska	Wastewater	Matanuska-Susitna Valley - Design and construct a new septage and leachate facility to minimize disposal costs and environmental impacts in the Matanuska-Susitna Valley.	Design	\$1M
Alaska	Drinking Water	McGrath – Renovate water distribution system, converting it from a two-pressure driven system to a circulating distribution system with individual residential circulation pumps. Existing system is over 30 years old and subject to frequent failure.	Planning and design	\$3.5M
Alaska	Drinking Water	Mountain Village – Replace upper water loop distribution system, repair services, and construct water storage tanks. Frequent pipe failure imposes a risk of catastrophic failure.	Planning and design	\$9M
Alaska	Drinking Water	New Stuyahok – New water treatment plant to replace structurally failing facility that does not adequately treat the water for iron removal.	Final design and construction	\$5M
Alaska	Wastewater	Nome - Replace aging wastewater collection piping.	Final design	\$3M
Alaska	Drinking Water and wastewater	Shageluk – Construct a piped water and sewer system for this remote Alaska community. Homes currently have no running water and sewer.	Planning and design	\$15M
Alaska	Drinking Water and Wastewater	Shishmaref - Provide unserved homes with individual household water and sewer systems. Homes currently lack any running water or sewer.	Planning and design	\$9M
Alaska	Wastewater	Sitka - Wastewater treatment plant heating ventilation and cooling upgrades.	Final design and construction	\$3M
Alaska	Drinking Water	Unalaska, Alaska - Design and construct a second 2.6 million gallon chlorine contact tank at the water treatment plant.	Final design and construction	\$10M
Alaska	Drinking Water and Wastewater	Venetie – Replace structurally failed water treatment plant and washeteria. Community currently lacks a community potable water supply and basic sanitation facilities.	Planning and design	\$4M
Alaska	Drinking Water	Wainwright - Water treatment plant addition including garage/maintenance room, mechanical room for heat exchangers and pumps, chemical storage, office, and storage areas.	Final design and construction	\$9M
			<b>Total \$ for state:</b>	<b>\$638,000,000</b>
Arizona	Wastewater	Nogales international wastewater treatment facility International Outfall Interceptor (IOI) line rehabilitation project (US DOI, US International Boundary Water Commission)	Approved pending funding	\$40M

State	Type	Description	Stage	Amount
Arizona	Drinking Water & Wastewater	Stabilize Nogales Wash-including stormwater erosion control and bank stabilization to protect the IOI thereby protecting the investment in the IOI rehabilitation and the Santa Cruz river, an important migratory pathway	planning & design	\$10M
			<b>Total \$ for state</b>	<b>\$50,000,000</b>
Arkansas	Drinking Water & Wastewater	Arkadelphia - Planning and design services for water and wastewater service to new industrial plant		\$5,000,000
Arkansas	Drinking Water	Bayou Meto Irrigation District- Continuation of construction - 65% Federal - 35% non federal		\$582,000,000
Arkansas	Wastewater	Calion - Additional funds needed for sewer collection and treatment system to provide service to 120 residents within city limits		\$230, 323
Arkansas	Drinking Water	CAW - Pump station rehab		\$5,000,000
Arkansas	Drinking Water	Eudora - Water line replacement and rehab of water treatment plant		\$3,400,000
Arkansas	Drinking Water	Faulkner County - Rocky Gap - Additional funds needed for water line extensions to provide service to approximately 49 residents		\$900,000
Arkansas	Wastewater	Fort Smith - Collection upgrades and pipe replacement		\$5,000,000
Arkansas	Drinking Water	Gould - Water line and meter replacement		\$1,578,000
Arkansas	Wastewater	Little Rock - Collection upgrades and pipe replacement		\$5,000,000
Arkansas	Wastewater	Lonoke County - Furlow - Wastewater treatment system for approximately 530 residents		\$3,160,850
Arkansas	Drinking Water	Nashville- Treatment plant improvements		\$1,100,000
Arkansas	Drinking Water	Scranton - Water line replacement		\$250,000
Arkansas	Drinking Water	Turrell - Rehab of water distribution system and sewer treatment plant		\$3,000,000
Arkansas	Drinking Water	White River Irrigation District - Continuation of construction - 65% Federal - 35% non federal		\$380,000,000
Arkansas	Drinking Water	Wooster - Water System Improvements		\$2,530,000
			<b>Total \$ for state:</b>	<b>\$998,149,173</b>
California	Wastewater	Wastewater Treatment Plant Upgrades	Final Design and Construction	\$12,000,000
California	Wastewater	Carson Regional Water Recycling Facility Phase IIB Expansion Project	Planning and Design	\$15,725,526
California	Wastewater	Sanitary Sewer Rehabilitation - Phase 5	Out to Bid	\$4,397,000
California	Wastewater	Joint Outfall "B" Unit 1A Trunk Sewer Rehabilitation Phase 1	Design	\$14,700,000
California	Wastewater	Joint Outfall "A" Unit 6 Trunk Sewer Rehabilitation	Design	\$17,000,000
California	Wastewater	Joint Outfall "D" Units 7 and 8 Trunk Sewer Rehabilitation	Design	\$9,500,000
California	Wastewater	Wastewater Treatment Plant Upgrades Phase 2	Ready Construction	\$2,444,569
California	Wastewater	Freedom Sanitation Trunk Sewer Line	Out to Bid	\$3,007,579
California	Wastewater	City of Hayward Recycled Water Project	Planning and Design	\$13,187,200
California	Wastewater	WWTP Head Works and Clarifier Upgrade Project	Out to Bid	\$33,229,571
California	Wastewater	Padre Dam Water Recycling Facility, Phase 1 Expansion	Out to Bid	\$101,200,000
California	Wastewater	La Piedra Recycled Water Pipeline Expansion Project	Out to Bid	\$678,265
California	Wastewater	Headworks and Primary Treatment, Phase 1(A)	Out to Bid	\$127,068,522
California	Wastewater	West Bay Sanitary District Recycled Water Project - Sharon Heights	Out to Bid	\$12,028,200
California	Wastewater	Trampas Canyon Recycled Water Seasonal Storage Reservoir	Planning and Design	\$47,012,000
California	Wastewater	Nevada County Sanitation District #1	Out to Bid	\$2,200,000
California	Wastewater	North Point Facility Outfall Rehabilitation	Planning	\$17,775,621
California	Wastewater	Phase II Recycled Water Distribution System Expansion Project	Out to Bid	\$6,000,000
California	Wastewater	Treatment and Wet Weather Flow Upgrade Project	Planning and Design	\$26,000,000
California	Wastewater	City of Shasta Lake Wastewater Treatment Facility Upgrade Project	Planning and Design	\$14,000,000
California	Wastewater	Wastewater Treatment Facility Improvements	Planning and Design	\$2,529,550
California	Wastewater	Groundwater Replenishment Project	Planning and Design	\$98,000,000
California	Wastewater	Pump Station 2 Power Reliability & Surge Protection Project	Planning and Design	\$38,610,000
California	Wastewater	Recycled Water Supply Optimization Program	Under Construction	\$57,015,640
California	Wastewater	Recycled Water Pipeline Project	Planning and Design	\$25,564,000
California	Wastewater	Digester and Thickener Facilities Upgrade Project	Under Construction	\$144,800,000
California	Wastewater	CWWSIPSE05 - SEP 521/522 and Disinfection Upgrades	Under Construction	\$41,613,516

State	Type	Description	Stage	Amount
California	Wastewater	2015 Drought Relief - Napa Lateral	Out to Bid	\$2,912,385
California	Wastewater	2015 Drought Relief - San Savaine Basin Improvements	Out to Bid	\$3,762,802
California	Wastewater	San Francisco Westside Recycled Water Project	Planning	\$171,220,000
California	Wastewater	CWW/SIPSE04 - SEP Primary/Secondary Clarifier Upgrades	Under Construction	\$32,308,985
California	Wastewater	Sludge Dewatering and Loadout Facility	Planning and Design	\$30,000,000
California	Wastewater	Water Meter Installations Phase 3-5	Out to Bid	\$14,010,534
California	Wastewater	Willow Creek Wastewater Project	Out to Bid	\$6,900,000
California	Wastewater	Fairmead Septic to Sewer Project	Planning and Design	\$4,000,000
California	Wastewater	Wastewater Facilities Improvement Project	Planning and Design	\$2,300,300
California	Wastewater	WWTP Digester Upgrade Project	Planning and Design	\$2,642,200
California	Wastewater	Collection System Improvements Project	Planning and Design	\$2,800,000
California	Wastewater	Wastewater Treatment Plant Re-location	Planning and Design	\$10,518,000
California	Wastewater	Effluent Management and Wastewater Treatment Project	Planning and Design	\$9,500,000
California	Wastewater	Kern-Tulare Water District Oil Field Water Reuse Project	Planning	\$7,000,000
California	Wastewater	Recycled Water Easterly Main and Tanks	Out to Bid	\$4,000,000
California	Wastewater	Brine Line Broadway to HARRF	Out to Bid	\$2,500,000
California	Wastewater	Recycled Water Line Phase 2	Out to Bid	\$3,750,000
California	Wastewater	Wastewater Treatment Plant Expansion Phase III	Planning	\$1,984,736
California	Wastewater	Paso Robles Recycled Water Project - Phase 1	Out to Bid	\$17,230,000
California	Wastewater	South Recycled Water Project	Planning	\$11,200,000
California	Wastewater	South El Monte Recycled Water Project	Planning	\$1,693,825
California	Wastewater	Santa Clarita Valley San Dist Microfiltration/RO	Out to Bid	\$56,001,000
California	Wastewater	Alessandro Pond Optimization Project	Planning and Design	\$1,196,200
California	Wastewater	Regional Urban Water Augmentation Project	Design	\$17,500,000
California	Wastewater	Temecula Valley Recycled Water Pipeline Project	Planning and Design	\$9,478,100
California	Wastewater	SEJPA Treatment Facility Improvements - PHASE 1	Design	\$6,300,000
California	Wastewater	SEJPA Recycled Water Phase II Project	Planning	\$4,030,000
California	Wastewater	Sustainable Water Infrastructure Project (SWIP)	Planning	\$57,048,637
California	Wastewater	Upper Salinas River Basin Conjunctive Use Project (US CUP)	Planning	\$3,043,000
California	Wastewater	San Jose Creek Water Reclamation Plant Flow Equalization Facilities Phase 1	Out to Bid	\$55,360,000
California	Wastewater	2015 Drought Relief - RP-1158 Recycled Water Pump Station Upgrades	Out to Bid	\$2,329,908
California	Wastewater	2015 Drought Relief - RP-5 Recycled Water Pipeline Bottleneck	Out to Bid	\$757,220
California	Wastewater	2015 Drought Relief - Recycled Water Pressure Sustaining Valve Installation	Out to Bid	\$495,106
California	Wastewater	2015 Drought Relief - RP-1 Parallel Outfall Pipeline	Out to Bid	\$3,320,119
California	Wastewater	2015 Drought Relief - Baseline Extension Project	Out to Bid	\$2,038,670
California	Wastewater	Mid Basin Centennial Park Injection Project	Out to Bid	\$34,121,612
California	Wastewater	City of Calipatria Sanitary Sewer Improvement Project	Design	\$655,000
California	Drinking Water	Treated Water Project, Phase 2	Out to Bid/ Ready for Construction	\$6,042,729
California	Drinking Water	New SWTP [Construction Phase]	In Construction	\$3,000,000
California	Drinking Water	Oak Creek Intermediate School Consolidation with Hillview Water Company	Out to Bid	\$569,480
California	Drinking Water	Shasta CSD Tanks/Pump Stations Replacement Project	Out to Bid	\$4,292,840
California	Drinking Water	Calpine Metering Project	Out to Bid	\$397,300
California	Drinking Water	Regional Benefit Arsenic Mitigation Project	Out to Bid/ Ready for Construction	\$13,839,184
California	Drinking Water	Reservoir No. 2 Pump Station and Water Line	Out to Bid	\$1,578,800
California	Drinking Water	Well #7 Replacement and Arsenic Treatment	Planning	\$8,327,753
California	Drinking Water	Installation of Arsenic Treatment Plant Components and Water Meters	Out to Bid	\$1,984,400
California	Drinking Water	Yosemite High School Uranium, Fluoride and Arsenic Exceedance-Remediation Project	Planning	\$1,230,000
California	Drinking Water	LMCSD Arsenic Compliance and Consolidation Project	Planning	\$1,444,000
California	Drinking Water	South Reservoir Replacement	Planning	\$17,772,000
California	Drinking Water	Elysian Reservoir Water Quality Improvement Project	Planning	\$31,839,032
California	Drinking Water	Feather Falls School Emergency Well Replacement #0400107	Planning	\$325,000
California	Drinking Water	Palo Verde County Water District Improvement Project	Out to bid	\$1,708,938
			<b>Total \$ for state:</b>	<b>\$1,577,546,554</b>
Colorado	Wastewater	City of Durango: The project consists of renovating the existing City of Durango Wastewater Treatment Plant in the current location, utilizing a Johannesburg secondary process to address capacity issues and to meet nutrient effluent limits, and includes additional facility upgrades and improvements.	Preparing final plans and specifications, WPCRF Loan	\$62.2M

State	Type	Description	Stage	Amount
Colorado	Wastewater	City of La Junta: The project consists of wastewater treatment plant upgrade to include new influent headworks, pumps, metering, grit collector, new grit building, oxidation ditch, clarifiers, new return activated sludge building, generator, chemical storage, disinfection, waste sludge gravity thickener, digesters, and control building rehabilitation.	Preparing final plans and specifications, WPCRF Loan	\$13,348,899
Colorado	Wastewater	Town of Bennett: The project consists of constructing a new mechanical wastewater treatment facility to replace the existing lagoon system.	Final Design stage, CWSRF	\$5,994,000
Colorado	Wastewater	Town of Buena Vista: The project consists of construction of wells with treatment, a storage tank, and main lines.	Final Design stage, DWSRF	\$1,920,000
Colorado	Wastewater	Town of Burlington: The project consists of constructing a centralized blending system to connect two new wells, and six existing wells to a central location; including transmission mains, ground storage tank, control system, and distribution system upgrades.	Out to bid, DWSRF project	\$4,430,000
Colorado	Wastewater	Town of Crested Butte: The project will update the existing treatment facility and provide required redundancy by increasing the facility capacity to .75 MGD and 2,696 ppd of BOD5; improvements include replacing the existing UV disinfection system, replacing the mechanical bar screen and grit collection system, and constructing a second oxidation ditch.	Final Design stage, CWSRF	\$3,307,000
Colorado	Wastewater	Town of Merino: The project consists of an ion exchange treatment system, distribution system upgrades, a new 90,000 gallon elevated water tank, water meters, a new treatment building constructed at the current well site, residuals transmission line, and residuals holding ponds.	Out to bid, DWSRF project	\$2,315,000
Colorado	Wastewater	Town of Fowler: The project consists of upgrades to the wastewater treatment facility, aerators, and installation of ultraviolet light for disinfection.	Final Design stage, CWSRF	\$1,800,000
			<b>Total \$ for state:</b>	<b>\$95,314,899</b>
Connecticut	Wastewater	Metropolitan District Commission - Hartford: Sewage sludge processing upgrades at the Hartford treatment plant	Design 90% complete and under review	\$48M
Connecticut	Wastewater	Greater New Haven Water Pollution Control Authority - New Haven: Combined sewer overflow removal project in the West River watershed in New Haven	Project in design	\$11M
Connecticut	Wastewater	Torrington: Treatment plant upgrade including nitrogen and phosphorus removal	Project in design	\$65M
Connecticut	Wastewater	Metropolitan District Commission - Hartford: Removal of combined sewer overflows from the Kane Brook area in Hartford	Project in design	\$21M
Connecticut	Wastewater	Plainville: Treatment plant upgrade including phosphorus removal	Project in design	\$13M
Connecticut	Wastewater	Killingly: Treatment plant upgrade including phosphorus removal	Project in design	\$22.5M
Connecticut	Drinking Water	GROTON UTILITIES/Groton: Water Treatment Plant Upgrade	Project in redesign	\$42M
Connecticut	Drinking Water	METROPOLITAN DISTRICT COMMISSION/Bloomfield: Transmission Main Hydraulic Improvements	Design complete	\$13M
Connecticut	Drinking Water	REGIONAL WATER AUTHORITY/Greater New Haven: Automated Meter Reading Phases III & IVa	Under construction	\$8.6M
Connecticut	Drinking Water	METROPOLITAN DISTRICT COMMISSION/Greater Hartford: Automated Meter Reading - Phase IV	Under construction	\$5M
Connecticut	Drinking Water	NORWICH PUBLIC UTILITIES/Greater Norwich: AMI Water Meter Replacement Program	Design complete	\$3.6M
Connecticut	Drinking Water	METROPOLITAN DISTRICT COMMISSION/Bloomfield: Reservoir #6 Water Treatment Facility Filtered Water Basin Rehab	Design complete	\$3M
Connecticut	Drinking Water	METROPOLITAN DISTRICT COMMISSION/Wethersfield: Garden Street Area Water Main Replacement	Project in design	\$3M
Connecticut	Drinking Water	REGIONAL WATER AUTHORITY/West Haven: Burwell Hill Tank Replacement	Under construction	\$3M
Connecticut	Drinking Water	REGIONAL WATER AUTHORITY/Derby: Ansonia-Derby Atm Storage Tank	Project in design	\$2.5M
Connecticut	Drinking Water	NORWICH PUBLIC UTILITIES/Norwich: Mohegan Park Water Tank	Design complete	\$2.4M
Connecticut	Drinking Water	WATERBURY WATER DEPARTMENT/Waterbury: Rehabilitations and Replacement of Water Mains 2016	Under construction	\$1.6M
Connecticut	Drinking Water	SOUTHINGTON WATER DEPARTMENT/Southington: Well #2A Construction Project (Well #2 Back-up)	Project in design	\$1.5M
Connecticut	Drinking Water	BETHEL WATER DEPT/Bethel: Hoyts Hill Booster Pump	Under construction	\$1M
Connecticut	Drinking Water	REGIONAL WATER AUTHORITY/Hamden: North Sleeping Giant Well Replacement	Design complete	\$1M
			<b>Total \$ for state:</b>	<b>\$271,700,000</b>
Delaware	Wastewater	City of Rehoboth Beach - Ocean Outfall Disposal for Treated Wastewater	Permitting	\$32.5 M

State	Type	Description	Stage	Amount
Delaware	Wastewater	City of Rehoboth Beach - Wastewater Treatment Plant Upgrade	Planning and Design	\$10.5 M
Delaware	Wastewater	City of Rehoboth Beach - Wastewater Treatment Plant Biosolids Upgrade	Planning and Design	\$12.5 M
Delaware	Wastewater	Sussex County - Route 54 Sanitary Sewer Extension Project	Planning and Design	\$2.0 M
Delaware	Wastewater	Sussex County - Angola North Sanitary Sewer Extension Project	Out to Bid	\$6.7 M
Delaware	Wastewater	Kent County - Air System (Blower) Optimization Project	Planning and Design	\$1.3 M
Delaware	Wastewater	City of Dover - Del Tech Pump Station Replacement	Planning and Design	\$400 K
Delaware	Wastewater	City of Dover - Lepore Road Sanitary Sewer Upgrade	Planning and Design	\$250 K
Delaware	Wastewater	City of Dover - Tar Ditch Interceptor Project	Planning and Design	\$250 K
Delaware	Wastewater	DNREC - NVF Wetlands Creation, Soil Contamination & Flood Mitigation	Out to Bid	\$4.4 M
Delaware	Wastewater	City of Lewes - Savannah Place Sanitary Sewer Extension Project	Planning and Design	\$1.7 M
Delaware	Wastewater	City of Harrington - Sewer Capacity Improvement Project	Out to Bid	\$1.5 M
Delaware	Wastewater	Town of Smyrna - North Duck Creek Sanitary Sewer Extension Project	Out to Bid	\$3.0 M
Delaware	Wastewater	City of Wilmington - Wetland Restoration, Conservation, Flood Mitigation	Planning and Design	\$16.7 M
Delaware	Wastewater	Town of Millsboro - Pump Station Generator Installation Project	Planning and Design	\$157 K
Delaware	Wastewater	Town of Millsboro - Pump Station Replacement Project	Planning and Design	\$610 K
Delaware	Wastewater	Town of Milton - Wastewater Treatment Plant Upgrade Project	Planning and Design	\$6.4 M
Delaware	Drinking Water	City of Wilmington - Water Main Improvement Project	Planning and Design	\$5.0 M
Delaware	Drinking Water	City of Dover - Water Treatment Plant Improvements	Planning and Design	\$2.5 M
			<b>Total \$ for state:</b>	<b>\$108,367,000</b>
District of Columbia	Wastewater	The Trash Transfer Station Improvement projects will divert polluted stormwater runoff at two trash transfer stations to pre-treatment facilities before stormwater is released to the combined or separate storm sewer system.	Planning and design	\$2,100,000
District of Columbia	Wastewater	Green Infrastructure Right of Way Retrofits will fund impervious surface retrofits in the MS4 areas of the Anacostia watershed to reduce the impacts of stormwater runoff.	Planning and design	\$5,000,000
District of Columbia	Wastewater	Oregon Avenue Watershed Green Streets will install bioretention, permeable pavement, and other appropriate volume reduction techniques to retain stormwater runoff that severely impacts Rock Creek.	Construction	\$2,900,000
District of Columbia	Wastewater	Normanstone LID Retrofit will install bioretention and bioswale volume reduction techniques to retain stormwater runoff at 13 sites on two roadways that drain to Normanstone Creek.	Construction	\$800,000
District of Columbia	Wastewater	National Arboretum Sewer Rehabilitation funds the structural repairs of the entire public sanitary sewer system inside the United States National Arboretum, including repair to the failed interceptor adjacent to Hickey Run.	Design	\$8,500,000
District of Columbia	Wastewater	Gravity Thickener Upgrades at Blue Plains involves upgrading the current gravity thickeners to optimize performance by reducing the severity and incidence of high solids concentration in the gravity thickener overflow.	Design	\$6,800,000
District of Columbia	Wastewater	District Stormwater Outfall Restoration Project will repair 13 damaged outfalls that have been identified as contributors to water quality degradation. These are located in watersheds in the District that are targeted for stream restoration.	Design	\$4,200,000
District of Columbia	Wastewater	This project will rehabilitate approximately 17,000 feet of the B Street/New Jersey Avenue Trunk Sewer to reduce inflow and infiltration	Design	\$1,700,000
District of Columbia	Wastewater	Storm Sewer Improvements at Bangor Street, SE and Park Street, SE, includes sewer rehabilitation to prevent flooding on Bangor Street and the rehabilitation of a degraded outfall on Park Street	Design	\$1,700,000
District of Columbia	Wastewater	Potomac Pumping Station Phase III entails replacement of actuators, controls, bar screens, sluice gates, gate valves, and make improvements to the switch gear.	Design	\$4,200,000
District of Columbia	Wastewater	Low Area Trunk Sewer Rehabilitation will rehabilitate approximately 11,700 linear feet of the sewer to eliminate minor structural defects and restore operational reliability.	Design	\$7,500,000
District of Columbia	Wastewater	Main and O St. Pumping Station Intermediate Upgrade entails replacement of pumps, motors, and controls, discharge flap gates, a sanitary bar screen, sluice gates and gate valves.	Design	\$5,200,000
District of Columbia	Wastewater	Rehabilitation of Lower East Side Interceptor involves the rehabilitation of this trunk through cleaning, repair and pre-and post CCTV investigations.	Design	\$6,200,000
District of Columbia	Wastewater	Tiber Creek Trunk Sewer Rehabilitation involves the rehabilitation of this trunk through cleaning, repair and pre-and post CCTV investigations.	Design	\$6,400,000
District of Columbia	Wastewater	Rehabilitation of Piney Branch Trunk Sewer involves the inspection and cleaning and lining of about 11,200 feet of defective trunk sewer and restoration of service and other connections.	Design	\$19,000,000
District of Columbia	Wastewater	Combined Sewer Under Building Rehabilitation Phase II will rehabilitate a percentage of the combined sewer that is classified high priority due to their location.	Design	\$1,000,000

State	Type	Description	Stage	Amount
District of Columbia	Wastewater	Georgetown Combined Sewer Rehabilitation will inspect and rehabilitate about 5,000 linear feet of large diameter combined sewers.	Design	\$6,700,000
District of Columbia	Wastewater	Potomac Interceptor Rehabilitation Fairfax will rehabilitate two portions of the interceptor that have experienced severe internal corrosion.	Design	\$5,000,000
District of Columbia	Stormwater	Fort Dupont Roadway LID project will install green infrastructure (e.g., bioretention) in conjunction with roadway repairs throughout Fort Dupont Park to treat roadway stormwater runoff	Design Complete	\$5,000,000
District of Columbia	Stormwater	RiverSmart Schools Stormwater Retrofits will fund schoolyard stormwater retrofits and provide teacher training for stormwater management and green infrastructure education	Construction	\$1,000,000
District of Columbia	Stormwater	Hamlin Street Stormwater Retrofits will capture and treat stormwater runoff from a portion of Hamlin St NE between 26th St NE and South Dakota Ave NE	Construction	\$1,000,000
District of Columbia	Stormwater	Carter Barron Stormwater Retrofits will provide green infrastructure to treat runoff from the Carter Barron Amphitheater parking lot; and restore and create habitat in several eroded gullies resulting from past stormwater runoff.	Construction	\$2,000,000
			<b>Total \$ for state:</b>	<b>\$103,900,000</b>
Florida	Wastewater	Plantation Bay rehab and upgrade: Rehabilitation and upgrade of the Plantation Bay WWTP (Flagler County) to bring facility into compliance as required by FDEP's Administrative Order No. AO111NE.	Ready to bid	\$5.7M
Florida	Wastewater	Avondale Stormwater improvements: Exfiltration trenches and stormwater pump station in Pompano Beach.	Ready to bid	\$3.23M
Florida	Wastewater	Construction of a new lift station, installation of gravity sewers, and the installation of reclaimed water transmission mains in Sarasota.	Ready to bid	\$27.8M
Florida	Wastewater	Reclaimed water augmentation: Stormwater pump stations and transmission mains to augment the reclaimed water system with stormwater in Deltona.	Ready to bid	\$10.45M
Florida	Wastewater	Treatment Plant Electrical Upgrades: Provide upgrades to the various low voltage systems at the Iron Bridge Wastewater Reclamation Facility (Orlando) that have exceeded their useful life.	Ready to bid	\$12.77M
Florida	Wastewater	Water reclamation facility upgrade: Upgrade and expand the Water Reclamation Facility (Apopka) to a flow rate of 8.0 million gallons per day.	Ready to bid	\$67.5M
Florida	Wastewater	Palmetto Street force main (FM) project: Reroute flow from two 16" FM through a new 36" ductile iron FM (Daytona Beach).	Ready to bid	\$29.7M
Florida	Wastewater	Sewer expansion: Construction of gravity sewers, a lift station and force mains to serve 775 residents and businesses and eliminate septic tanks (Miramar).	Ready to bid	\$16.9M
Florida	Wastewater	Collection system expansion: Expand the city's existing collection system to approximately 3,000 homes on septic tanks in the North 2 service area (Cape Coral).	Ready to bid	\$95M
Florida	Drinking Water	Water main replacements: Replacement of water mains in St. Augustine.	Contracts awarded	\$9.4M
Florida	Drinking Water	Improve water treatment plant and replace all asbestos and lead service pipes in Highland Beach.	Contracts awarded	\$4.7M
Florida	Drinking Water	New wellfield (water supply) and upgraded water treatment (membrane) in Miramar.	Design build contract awarded	\$23.7M
Florida	Drinking Water	Water system expansion: Expand drinking water and reclaimed water mains to residents in the North 2 service area in Cape Coral.	Bidding completed	\$105M
Florida	Drinking Water	Water main replacements: Multi-phase water distribution system replacement project in South Miami Heights.	Ready to award contracts	\$54.7M
			<b>Total \$ for state:</b>	<b>\$466,550,000.00</b>
Georgia	Drinking Water	Town of Homer - replacement of old, inaccurate water meters with an automated meter reading system and replacement of old, leaking water lines.	Proposed construction start date - 9/29/2017	\$1,099,000
Georgia	Drinking Water	Flovilla - replacement of all of its existing manual read water meters that are 10-20 years old with new, AMR type meters. Also, approximately 15,000 LF of asbestos cement water line will be replaced. Replacing the proposed water line will eliminate the asbestos in the line and greatly reduce the number of breaks and resulting repairs within the system.	Proposed construction start date - 9/4/2017	\$1,204,440
Georgia	Drinking Water	The Green Initiative Fixed Base Meter Reading System Expansion will expand a fixed base reading network system-wide, replace old water meters, replace leaking service lines and blue polybutylene service connections, provide all equipment, materials and software for a complete fixed network.	Proposed construction start date - 10/2/2017	\$8,721,000

State	Type	Description	Stage	Amount
Georgia	Drinking Water	Chickamauga - Replacing +/- 2,000 existing water meter heads with new automatic meter read (AMR) heads, and replacing a section of old, leaking 2" galvanized water lines with 2" and 6" PVC within the existing system.	Proposed construction start date - 12/15/2017	\$1,150,000
Georgia	Drinking Water	McRae-Helena - Water system rehabilitation including upgrades to existing wells, construction of adequate water lines to connect the legacy Helena and McRae water systems, install SCADA improvements to control well operation and prevent tank overflow, replace existing distribution lines that contribute to poor water quality in residential and commercial areas, and upgrade the metering system to a fixed base system.	Proposed construction start date - 6/1/2017	\$2,329,100
Georgia	Drinking Water	Satilla - Replacement of approximately 6,625 water meters, which includes all existing water meters in the existing distribution system, with new AMR water meters. Project also includes the installation of approximately 3,260 backflow preventers on services that currently do not have backflow prevention and replacement of leaking service lines.	Proposed construction start date - 6/1/2017	\$1,684,225
Georgia	Drinking Water	Kingsland - Improvements to existing water system including replacing old water meters with Automatic Meter Reading (AMR) and upgrading and repairing the existing water treatment plant to increase efficiency	Proposed construction start date - 10/16/2017	\$1,500,000
Georgia	Drinking Water	Camilla - Replacement of leaking asbestos cement water mains and services in the Thomas and Brimberry Street and South MacArthur Drive area. Project also includes the installation of new valves and hydrants as well as upgrading the city's existing water meters.	Proposed construction start date - 5/1/2017	\$1,153,936
Georgia	Drinking Water	Ellaville - Replacement of all of the city's existing approximately 937 manual read water meters with new Automated Meter Reading (AMR) capable water meters. Also included is the installation of backflow preventers on services and the replacement of leaking service lines.	Proposed construction start date - 8/15/2017	\$500,431
Georgia	Drinking Water	Quitman - Replacement of all of the city's approximately 2,154 aged, inaccurate manual read water meters with new AMI capable water meters. Project also includes replacement of miscellaneous water system appurtenances and the replacement of the pump and motor at Well No. 1.	Proposed construction start date - 8/1/2017	\$1,466,535
Georgia	Drinking Water	The city of Dawsonville is upgrading their water meter system with an AMR solution for all customer meters. Nearly 1,200 meters will be converted to radio-read type meters.	Proposed construction start date - 3/21/2017	\$569,000
Georgia	Drinking Water	Blue Ridge - This project is Phase III of a larger project to replace all of the failing water meters in the city of Blue Ridge with new meters that can be read remotely using AMI technology. This phase will consist of the replacement of 43 - 1" or larger water meters as well as 675 additional 3/4" residential water meters and transmitters for all meters (718).	Proposed construction start date - 4/15/2017	\$249,852
Georgia	Drinking Water	Hinesville - This project will raise the elevation of three existing elevated potable water storage tanks and make necessary associated well improvements. This will increase domestic operating pressures and reduce the need for booster pumps on new commercial and residential developments therefore reducing overall energy consumption and construction costs by eliminating pumps.	Proposed construction start date - 7/3/2017	\$2,605,000
Georgia	Drinking Water	Baldwin - replacement of remaining existing water meters throughout the system with wireless automatic smart meter reading system in phase two of its water meter replacement program.	Proposed construction start date - 9/1/2017	\$800,000
Georgia	Drinking Water	Dublin - replacement of all of its existing water meters with new AMR type meters to increase efficiency and reduce water loss.	Proposed construction start date - 9/4/2017	\$1,247,750
Georgia	Drinking Water	Banks County - first phase of a larger plan to replace all of the failing water meters with new meters. This phase will consist of the replacement of 853 - 3/4" and 1" residential water meters as well as 6 - 3"-8" commercial meters.	Proposed construction start date - 6/15/2017	\$309,432
Georgia	Drinking Water	Harris County - This project will replace all of the failing water meters with new meters. This project will consist of the replacement of all 8,042 - 3/4" water meters and 200 - 1" water meters. All meters will be replaced within existing meter boxes.	Proposed construction start date - 6/15/2017	\$1,811,472
Georgia	Drinking Water	Schley County - Installation of a filtration system at the authority's Goolsby-Stevens Road well site to remove iron and manganese from the raw water produced.	Proposed construction start date - 9/1/2017	\$406,000

State	Type	Description	Stage	Amount
Georgia	Drinking Water	Brunswick- Glynn Joint Water and Sewer Commission - Replacement of existing AC water mains that have deteriorated with age. New water mains, valves, hydrants, fittings, and service connections will be installed to replace the existing AC mains.	Proposed construction start date - 9/1/2017	\$867,235
Georgia	Drinking Water	Doerun - Construction of a new water supply well and drinking water treatment facility as backup to the single well the city currently has. The project will also replace aged, leaking cast iron water mains in the College Avenue area.	Proposed construction start date - 10/1/2017	\$527,800
Georgia	Wastewater	Hinesville - extending two reuse lines, one along Pineridge Road and one on South Main Street to serve 40 existing customers and potentially 200 more customers.	Proposed construction start date - 6/30/2017	\$510,000
Georgia	Wastewater	Baldwin - plans to improve their wastewater treatment facility in order to improve operations at the plant.	Proposed construction start date - 9/1/2017	\$4,750,000
Georgia	Wastewater	Garden City - drainage improvements in this corridor, including construction or rehabilitation of standard roadway drainage infrastructure, channel modifications, and permanent protection of floodplain.	Proposed construction start date - 6/1/2017	\$2,000,000
Georgia	Wastewater	Grovetown - Construction of a new 3.0 mgd WPCP to replace the existing deficient land application system, and sewerage system improvements to include installation of pump stations and force mains to redirect multiple basins to the new WPCP.	Proposed construction start date - 9/4/2017	\$20,776,100
Georgia	Wastewater	Athens - Clarke County - To improve and protect water quality along 303(d) impaired waters by placing a 19.78 acre commercially-zoned property into a perpetual conservation easement and then transferring it to the Athens-Clarke County Unified Government in a fee-simple transaction.	Proposed construction start date - 7/31/2017	\$790,000
Georgia	Wastewater	Douglas - The project consists of review of existing sewer mains and manholes along with rehabilitation of the worst issues identified, replacement of the influent pump station at the WWTF, and other miscellaneous repairs at the WWTF.	Proposed construction start date - 8/1/2017	\$2,500,000
Georgia	Wastewater	Thomaston - this project will either rehabilitate or replace all failing sewer lines, manholes, and services in its system. As a result, inflow and infiltration will decrease, and the city will have less water leaks to repair.	Proposed construction start date - 10/1/2017	\$2,500,000
Georgia	Wastewater	Byron - this project will rehabilitate or replace all failing sewer lines, manholes, and services in its system. As a result, inflow and infiltration will decrease, and the city will have less water leaks to repair. The Macon Water Authority (MWA) will also benefit from this work since Byron's collected sewer goes to MWA for treatment.	Proposed construction start date - 10/1/2017	\$2,500,000
Georgia	Wastewater	DeKalb County - this project proposed 4 streambank restoration projects to protect sewer infrastructure. Additionally, DWM proposes to do a trash collection demonstration project to improve water quality in the South River near the Snapfinger Wastewater Treatment Plant that has been significant amounts of observed trash.	Proposed construction start date - 9/1/2017	\$2,340,187
Georgia	Wastewater	Hawkinsville -The project consists of rehabilitation/replacement of existing mechanical equipment and structures at the WWTFs as well as improvements to the solids handling.	Proposed construction start date - 6/1/2017	\$2,500,000
Georgia	Wastewater	Gray - construction of a new 350 GPM lift station to replace the existing Glover Lane Lift Station.	Proposed construction start date - 12/4/2017	\$710,400
Georgia	Wastewater	Blue Ridge - Rehabilitation/replacement of a failing 40+ year old pump station located off of Trackside Lane and improvement of approximately 3,450 linear feet of undersized 6-inch gravity sewer main along Hwy 515 and Ballewstown Road.	Proposed construction start date - 4/15/2017	\$900,000
Georgia	Wastewater	Kingsland - has a major need for improvements to its wastewater treatment facility. Much of the equipment at these plants is aging and has reached the end of its useful life. This project will involve work to either repair or fully replace several existing mechanical equipment and structures. A small equalization basin will also be added on the WWTF site to equalize flows going through the plant.	Proposed construction start date - 10/1/2017	\$2,000,000
Georgia	Wastewater	Athens-Clarke County will construct a 600kW solar installation at the Cedar Creek wastewater treatment facility.	Proposed construction start date - 7/31/2017	\$1,200,000
Georgia	Wastewater	Jefferson - replacement of existing undersized outfall sewer in the east side of the community. The sewer line is constructed of aging vitrified clay pipe. The line experiences infiltration and inflow, frequent blockages, and other failures typical to older clay sewer lines.	Proposed construction start date - 9/1/2017	\$960,000
Georgia	Wastewater	Social Circle - sewage collection system improvements for sewer rehabilitation and collection basin consolidation.	Proposed construction start date - 9/1/2017	\$1,000,000

State	Type	Description	Stage	Amount
Georgia	Wastewater	Thomasville - has plan to abandon one of its older lift stations in the city's existing sewer system by replacing it with more than 1,000 feet of gravity sewer main.	Proposed construction start date - 5/30/2017	\$1,500,000
Georgia	Wastewater	Clayton County - construct a 1.2 MW solar installation at the WB Casey Water Reclamation Facility located on Flint River Road.	Proposed construction start date - 6/1/2017	\$2,450,000
Georgia	Wastewater	Clayton County - construct a 1.2 MW solar installation at the RL Jackson Pump Station located on Thomas Road.	Proposed construction start date - 5/1/2017	\$2,500,000
Georgia	Wastewater	Peachtree City - construct a 500 kW solar installation located at the Rockaway wastewater treatment facility.	Proposed construction start date - 6/1/2017	\$1,100,000
			<b>Total \$ for state:</b>	<b>\$85,688,895</b>
Hawaii	Wastewater	Hawaiian Homes Force Main Replacement	Out to bid	\$2,200,000
Hawaii	Wastewater	Honouliuli Water Recycling Facility R-1 Pre-Treatment and UV Disinfection Improvements	Design	\$6,300,000
Hawaii	Wastewater	Lahaina Wastewater Reclamation Facility Modifications, Stage 1A	Out to bid	\$34,000,000
Hawaii	Wastewater	Ala Moana Wastewater Pump Station Force Main #3 and #4	Under construction	\$9,000,000
Hawaii	Drinking Water	Iao Surface Water Treatment Plant Upgrades	under construction	\$21,500,000
Hawaii	Drinking Water	Piihonua-Kukuao Reservoir and Transmission Improvements	under construction	\$9,500,000
Hawaii	Drinking Water	Energy Savings Performance Contracting	obtaining permits and approvals	\$32,000,000
Hawaii	Drinking Water	Kalihi Pump Station Low and High Service Renovation	planning and design	\$1,000,000
Hawaii	Drinking Water	Pump Renewal and Replacement for Keanu Line Booster, Maunawili Booster, Mariner's Ridge	planning and design	\$1,100,000
Hawaii	Drinking Water	Pump Renewal and Replacement: Kaluanui Line Booster, Diamond Head Line Booster, Kaonohi Booster No. 1, Waihee Line Booster, and Punaluu Wells II	planning and design	\$1,200,000
Hawaii	Drinking Water	Punaluu Wells II Renovation	planning and design	\$1,700,000
Hawaii	Drinking Water	Kamaile Wells: Drainage Improvements and Control Building Repairs	planning and design	\$292,000
Hawaii	Drinking Water	Kapiolani Blvd 12-Inch Main CM	planning and design	\$1,100,000
Hawaii	Drinking Water	Pearl City Wells II Isolation Valves	planning and design	\$258,000
Hawaii	Drinking Water	Waialae Iki Well Renovation	planning and design	\$150,000
Hawaii	Drinking Water	Renovate/Replace Reservoir Altitude Valve Assemblies - Makiki & Waialae Iki 180 Reservoir	planning and design	\$330,000
Hawaii	Drinking Water	Mililani Wells II Improvements	planning and design	\$118,000
Hawaii	Drinking Water	Pearl City Wells I Renovation	planning and design	\$238,000
Hawaii	Drinking Water	Waikoloa Reservoir No. 1 Earthquake Damage Repairs	under construction	\$5,000,000
			<b>Total \$ for state:</b>	<b>\$126,986,000.00</b>
Idaho	Wastewater	Star Sewer and Water District:Construct lagoons	Design and Construction	\$30M
Idaho	Wastewater	City of Blackfoot: Improve treatment and add interceptors	Design and Construction	\$8M
Idaho	Wastewater	City of Malad: Add new lagoon and mechanical treatment	Design and Construction	\$5M
Idaho	Wastewater	City of Kimberly: Upgrade collection system	Design and Construction	\$5M
Idaho	Wastewater	City of Nampa: Upgrade treatment, collection lines and pumping	Design	\$10M
Idaho	Drinking Water	City of Spirit Lake: Add new water source	Design and Construction	\$0.5M
Idaho	Drinking Water	City of Rupert: Improve treatment and distribution, add source and meter	Design and Construction	\$5.7M
Idaho	Drinking Water	City of Coeur d'Alene: Add new storage facility	Design and Construction	\$1.8M
Idaho	Drinking Water	City of Filer: Improve treatment and distribution	Design and Construction	\$5M

Illinois	Drinking Water	Central Park PS Electrification, Chicago- Cook Co.	Financial approval complete, final loan application complete, need to rebid, Construction 3-5 months	\$103.6M
Illinois	Wastewater	Phase 1B Biological Improvements, DeKalb Sanitary District- DeKalb Co.	Pending financial approval, final loan application and bidding. Construction 5/2017	\$58M
Illinois	Drinking Water	Jardine Plant, Med. Voltage Electrical Improvements, Chicago- Cook Co.	Financial approval complete, final loan application complete, bidding needs to be completed. Construction 3-5 months	\$52M
Illinois	Wastewater	Wet Weather Treatment Facility, city of Joliet- Will Co.	Pending financial approval, final loan application and bidding. Construction spring, 4/2017	\$50M

State	Type	Description	Stage	Amount
Illinois	Wastewater	Consolidate Treatment @ Regional Plant - Group II Projects, Frankfort- Will Co.	Final loan application complete, partial financial review complete, pending bidding. Construction 5/2017	\$35M
Illinois	Drinking Water	New Filtration Facility, Rock Island- Rock Island Co.	Pending financial approval, final loan application and bidding. Construction 4/2017	\$30M
Illinois	Drinking Water	Transmission Main from Reich Complex to Marion - Part 4A village of Oak Lawn- Cook Co.	Financial approval needs completed, final loan application needs to be completed, needs to be rebid, construction 3/2017	\$29.8M
Illinois	Drinking Water	New WTP, 2 new wells, & misc. improvements, Taylorville- Christian Co.	Pending financial approval, final loan application and bidding. Construction 3/2017	\$29M
Illinois	Wastewater	WWTP Improvements (Major), Batavia- Kane Co.	Financial approval complete, planning and bids need to be completed, construction 3/2017	\$27.5M
Illinois	Wastewater	Phosphorus Removal Aux Sable & Westside WWTPs, city of Joliet- Will Co.	Pending financial approval, final loan application and bidding. Construction 4/2017	\$23.7M
Illinois	Wastewater	WWTP #2 Expansion & Upgrade, Village of New Lenox- Will Co.	Pending financial approval, final loan application and bidding. Construction spring 2017	\$19.7M
Illinois	Drinking Water	Transmission main extensions to serve 4 new communities - Phase 3 CLJAWA-Lake Co.	Bidding complete, financial approval complete, pending final loan application. Construction spring 2017	\$15.3M
Illinois	Wastewater	Critical Sewer Rehab Phase III, city of Decatur- Macon Co.	Financial approval complete, final loan application complete, bidding needs to be completed. Construction 3/2017	\$15M
Illinois	Wastewater	W. Washington St. Drainage Improvements Phase 2, city of Champaign- Champaign Co.	Bidding complete, pending financial approval and final loan application. Construction 3/2017	\$12.1M
Illinois	Drinking Water	Jardine Plant, Chlorine Improvements, Chicago- Cook Co.	Financial approval complete, final loan application complete, bidding needs to be completed. Construction 3-5 months	\$12.1M
Illinois	Drinking Water	Transmission main extensions to serve 4 new communities - Phase 2, CLCJAWA - Lake Co.	Bidding complete, financial approval complete, pending final loan application. Construction spring 2017	\$10M
Illinois	Wastewater	Melvina Ditch Streambank Stabilization, Metropolitan Wastewater Reclamation District of Greater Chicago- Cook Co.	Pending financial approval, final loan application and bidding. Construction spring 2017	\$8.8M
Illinois	Wastewater	WWTP Expansion, Beecher- Will Co.	Pending financial approval, final loan application and bidding. Construction 3/2017	\$8.5M
Illinois	Drinking Water	New Meters, city of Lansing- Cook Co.	Bidding complete, pending financial approval and final loan application. Bids expire 3/2017 expected date of construction	\$4.9M
Illinois	Wastewater	Pump Station replacement and abandonment and force main relocation, city of Danville- Vermilion Co.	Environmental issues stalled, now restarting. Construction 3-5 months	\$4.5M
			<b>Total \$ for state:</b>	<b>\$546,500,000</b>
Indiana	Drinking water	East Chicago- Replace deteriorating service lines, including over 4,000 lines that contain lead	Final design and could be bid under construction in 4 months	\$16,545,000
Indiana	Drinking water	Newton County - new well field, treatment plant and distribution system to enable local commercial farm to expand and provide needed jobs	Ready to bid	\$9,000,000
Indiana	Drinking water	Cayuga - New service line from Cayuga to local school to replace School's water supply	Bids received and ready to start construction	\$1,300,000
Indiana	Drinking water	Atlanta - Loop and replace lines, hydrants and valves due to age	In design and will bid in June 2017	\$1,400,000

State	Type	Description	Stage	Amount
Indiana	Drinking water	Cordry - line replacement, tower rehab and new water meters	Bids to be opened and construction to start first quarter of 2017	\$1,600,000
Indiana	Drinking water	Greentown - Water & treatment plant rehab, water main replacement and SCADA	In design and will bid in June 2017	\$1,114,000
Indiana	Drinking water	Hillsdale- treatment plant and distribution system improvements	Bids received and ready to start construction	\$1,613,000
Indiana	Drinking water	Ingalls - two new wells and building rehabilitation	Bids received and ready to start construction	\$1,400,000
Indiana	Drinking water	Ligonier - new filter piping and valves, SCADA, hydrants and water main replacement	In design and will bid in May 2017	\$1,700,000
Indiana	Drinking water	Montezuma - distribution system rehab	Ready to bid	\$1,223,000
Indiana	Waste water	Advance - treatment plant upgrade	In design and will bid in June 2017	\$785,000
Indiana	Waste water	Allen County - Elimination of septic tanks in six unincorporates areas of Allen County	Ready to bid	\$7,535,000
Indiana	Waste water	Andrews - treatment plant upgrades	In design and will bid in June 2017	\$4,000,000
Indiana	Waste water	Cromwell - Treatment Plant upgrades and collection system improvements	Bids to be opened in February, 2017	\$2,000,000
Indiana	Waste water	Georgetown - treatment plant expansion	Bids to be opened in April 2017	\$3,400,000
Indiana	Waste water	Greensburg - treatment plant expansion to accommodate Honda plant expansion	Bids to be opened in January and construction to start first quarter	\$7,664,000
Indiana	Waste water	Jeffersonville - combined sewer overflow interceptor holding	Bids to be opened in April, 2017	\$34,000,000
Indiana	Waste water	Western Wayne - treatment plant upgrades and expansion to enable local industrial park to expand, creating needed jobs	Ready to bid	\$13,000,000
Indiana	Waste water	Romney - new treatment plant and collection system to eliminate failing septic systems	Ready to bid	\$4,000,000
Indiana	Waste water	Crown Point - secondary treatment, eliminate leaking service lines and replace lift stations	Bids received and ready to start construction	\$6,600,000
			<b>Total \$ for state:</b>	<b>\$119,879,000</b>
Iowa	Wastewater	Des Moines - Construction of the Eastside Interceptor Sewer and pump station to take increased sewage flows to the Wastewater Reclamation Facility	Ready to bid	\$68,340,000
Iowa	Wastewater	Des Moines - As part of the City's Long Term Control Plan to reduce combined sewer overflows, separate sewers by constructing new storm sewers, regional detention, and a pump station	Ready to bid	\$30,660,000
Iowa	Drinking Water	North Liberty - Design and construction of a new reverse osmosis water treatment plant	Ready to construct	\$22,072,000
Iowa	Wastewater	Ames - Address Infiltration and inflow into the City's sanitary sewer system utilizing a variety of rehabilitation techniques	Ready to bid	\$21,432,000
Iowa	Wastewater	Fort Madison - Replace aging equipment, repair structures, implement nutrient removal, add biosolids storage at wastewater treatment facility	Ready to construct	\$19,927,000
Iowa	Wastewater/Stormwater/Water	Johnston - Installation of sanitary sewer in area currently on septic systems, implementation of green storm water infrastructure practices, and replacement of aging water main	Ready to bid	\$16,990,000
Iowa	Wastewater	Sioux - Improve various treatment plant equipment to renew initial capacity, improve performance, improve reliability and improve life of treatment system	In design	\$12,710,000
Iowa	Wastewater	Waukeet - Meet schedule to comply with bacteria and nutrient limits by connecting to the regional Wastewater Reclamation Facility and upgrade capacity of sewers and lift stations	In design	\$12,537,000
Iowa	Wastewater	Fort Dodge - Sanitary sewer rehabilitation and replacement of lift stations to eliminate backup of sewage into residents' basements	Ready to bid	\$10,900,000
Iowa	Drinking Water	Dubuque - Extension of water service to two small water systems to meet safe drinking water standards	In design	\$10,801,400
Iowa	Wastewater	Grinnell - To meet new water quality standards, installation of disinfection and ammonia removal in wastewater facility, and other improvements	Ready to bid	\$10,403,000

State	Type	Description	Stage	Amount
Iowa	Wastewater	Northwood - Comply with current and future wastewater permitting requirements by construction of new extended aeration activated sludge treatment system	Under construction	\$8,970,000
Iowa	Stormwater	Dubuque - Stream daylighting for improved water quality, to mitigate flooding, and to manage stormwater	In design	\$7,716,000
Iowa	Drinking Water	Amana - To correct water system deficiencies in pressure and bacteria, replacement of elevated water storage, construction of booster station, installation of larger water main, and new wells	In design	\$5,603,000
Iowa	Drinking Water	Des Moines - Address deficiencies in source water through construction of three new wells	In design	\$5,368,000
Iowa	Drinking Water	Van Meter - Construction of a new water treatment plant, wells, and piping to increase reliability in the water system	In design	\$4,608,000
Iowa	Wastewater	Garnavillo - To meet new water quality standards, installation of disinfection and ammonia removal in wastewater facility	Ready to bid	\$4,469,250
Iowa	Drinking Water	Fort Dodge - Upgrade of all water meters and addition of automatic reading system to improve accuracy of billing and financial operation	In design	\$4,347,000
Iowa	Wastewater	Spencer - To comply with consent order to eliminate combined sewer overflows, construction of separate storm sewer system and replace deteriorated sanitary sewers	Ready to bid	\$4,025,000
Iowa	Drinking Water	Rathbun - Replace aging water meters with a new advanced/smart metering system for increased accuracy and efficiency as well as enhanced customer service	Ready to bid	\$2,902,945
			<b>Total \$ for state:</b>	<b>\$284,781,595</b>

Louisiana	Wastewater	VILLE PLATTE Wastewater Rehabilitation	planning & design	\$5,000,000
Louisiana	Wastewater	WEST MONROE Wastewater Plant Solar Upgrade	out to bid	\$1,541,300
Louisiana	Wastewater	WEST OUACHITA SEWERAGE DISTRICT NO. 5 Wastewater Rehabilitation	planning & design	\$7,710,750
Louisiana	Wastewater	ZWOLLE Wastewater Rehabilitation	planning & design	\$1,059,440
Louisiana	Drinking Water	WWD#1 of Desoto Parish: Install 1 MGD pretreatment system.	Out to Bid; Closing by June 2017	\$1,977,300
Louisiana	Drinking Water	Jefferson Parish: Construct a new 40 MGD treatment facility.	Planning & Design	\$30,000,000
Louisiana	Drinking Water	Calcasieu Parish WWD#8: Rehab WTP, replace existing water mains, install new chlorine booster station.	Planning & Design	\$2,200,000
Louisiana	Drinking Water	Hebert Water System: Distribution Rehab, construction of, new ground storage tank, new office building, and painting of existing elevated storage tank.	Planning & Design	\$2,600,000
Louisiana	Drinking Water	Calcasieu Parish WWD#5 (Ward 3 & 8): Expansion of existing WTP, extend water lines to citizens on private wells.	Planning & Design	\$15,000,000
Louisiana	Drinking Water	L & R Utilities: Consist of upgrading distribution and installing new ground storage tank.	Planning & Design	\$966,000
Louisiana	Drinking Water	St. Bernard Parish Waterworks (Loan2): Replacement of existing waterlines, continuation loan from Loan 1.	Planning & Design; Closing by June 2017	\$10,000,000
Louisiana	Drinking Water	Broussard Water System: Construcion of 3 new water wells and install mains to tie into existing distribution system.	Planning & Design	\$3,750,000
Louisiana	Drinking Water	Belah Fellowship Water System: Construction of 2 new ground storage tanks, and rehab to WTP.	Planning & Design	\$2,935,000
Louisiana	Drinking Water	Town of Livingston: Construction of a new elevated water tank and 2 water wells.	Planning & Design	\$3,659,400
Louisiana	Drinking Water	Louisiana Water Company-New Iberia: Construction of new water well, improvements to distribution system, and new service pumps.	Approved pending funding: Closing March 2017	\$7,500,000
Louisiana	Drinking Water	Town of Coushatta: Construction 2 new water wells and various other improvements to existing water infrastructure.	Planning & Design	\$5,000,000
Louisiana	Drinking Water	Lafayette Parish WWD North: Rehab to existing WTP.	Planning & Design	\$2,500,000
Louisiana	Drinking Water	Vernon Parish Water/Sewer Commission #1:Construction of new elevated storage tank, water well and installation of water mains.	Planning & Design	\$2,330,000
Louisiana	Drinking Water	Lake Bruin Water District 1: Replace elevated storage tank,install new booster station and new water meters.	Planning & Design	\$1,128,000
Louisiana	Drinking Water	South Grant Water Corporation: Construction of new water well, and replace 2 existing ground storage tanks.	Planning & Design	\$1,450,000
Louisiana	Drinking Water	Zone Two Water System, Inc.: Improvements to distribution system.	Planning & Design	\$660,000
Louisiana	Drinking Water	Town of Welsh: Replacement of existing ground storage tank.	Out to Bid; Closing by June 2017	\$900,000
Louisiana	Drinking Water	Southeast Waterworks District #2 (Vermillion Parish):New automatic read water meters.	Planning & Design	\$800,000

Nebraska	Wastewater	Construction of collection system, lift station and force main in Gretna, NE	Issued construction permit	\$5,147,000
Nebraska	Drinking Water	Replace water tower, add well and transmission mains, and upgrade Water Treatment Plant at Adams, NE	Start construction Sept 2017	\$3,832,316
Nebraska	Drinking Water	Upgrade to Radio-Read water meters for Kearney, NE	Approved Pending Funding	\$1.5M
Nebraska	Drinking Water	New water well with new transmission main for Springfield, NE	Start construction Sept 2017	\$1,112,000
Nebraska	Wastewater	Improvement to sanitary sewer system to reduce wastewater flows and install water meters in Clearwater, NE	Plans expected by Jan 31, 2017	\$1M
Nebraska	Drinking Water	Replace/Loop water main, replace water meters, and construct blending wells due to uranium and nitrate issues in Oshkosh, NE	Approved Pending EPA deviation approval	\$876,400
Nebraska	Drinking Water	Replace water well due to Selenium levels in Fullerton, NE	Start construction Sept 2017	\$816,500
Nebraska	Wastewater	Rebuild the town's two-cell lagoon system and add a third cell in Hardy, NE	Agency Reviewing Plans & Specs	\$700K
Nebraska	Drinking Water	Interconnection with Washington County Rural Water No. 2 and a new public works building at Fort Calhoun, NE	Approved Pending Funding	\$643,800
Nebraska	Drinking Water	Water main replacements for Trenton, NE	Approved Pending Funding	\$499,600
Nebraska	Wastewater	Construct 2-cell complete retention lagoon system in Gilead, NE	Funding Awarded Sept 2016	\$473,600
Nebraska	Drinking Water	Sandblast and repaint the interior/exterior of water tower and other appurtenances at Clarkson, NE	Approved Pending Funding	\$320K
			<b>Total \$ for state:</b>	<b>\$184,521,216</b>

State	Type	Description	Stage	Amount
Nevada	Drinking Water	Dayton: 10-mile water storage tank	Design	\$2.2M
Nevada	Drinking Water	Dayton: Rolling "A" Well #21	Design	\$1.8M
Nevada	Drinking Water	Douglas County: Replacement of 100 feet of intake pipe & addition of in-lake booster pump for Cave Rock	Design approved for construction	\$230K
Nevada	Drinking Water	Ely: Addition of 12-inch water main to supplement water to the City's main pressure zone	Design	\$1,485,000
Nevada	Drinking Water	Fernley: System rehabilitation including waterline replacement, tank recoating, well VFD upgrade, fire hydrant replacement, pipe bridge rehabilitation	Design	\$905K
Nevada	Drinking Water	Fernley: Systemwide meter rehabilitation/improvements	Design	\$436K
Nevada	Drinking Water	Goldfield: Replacement of 62,590 feet of 6-inch AC transmission main from well field to treatment plant	Design	\$5,461,815
Nevada	Drinking Water	Las Vegas: Water main replacements throughout City	Design	\$13,209,100
Nevada	Drinking Water	Lovelock: 19,090 feet replacement/addition of transmission main for looping Lower Valley	Design	\$1,356,315
Nevada	Drinking Water	Lovelock: Replacement of 58,080 feet of 16-inch AC transmission main from well field to storage tanks	Design	\$3,315,490
Nevada	Drinking Water	N Las Vegas: West Cheyenne well replacement	Design	\$2.5M
Nevada	Drinking Water	Reno/Sparks/Washoe Co (TMWA): Verdi small systems consolidation	Design	\$1M
Nevada	Wastewater	Dayton: 12" effluent pipeline & new 0.5 MGD RIB	Design	\$990K
Nevada	Wastewater	Dayton: Sludge dewatering facility	Design	\$1.65M
Nevada	Wastewater	Douglas Co: Replacement of deteriorated Meridian lift station	Design	\$300K
Nevada	Wastewater	Fernley: Donner Trails lift station	Design	\$1,070,565

Nevada	Wastewater	N. Las Vegas: NE interceptor - 5 miles of sanitary sewer to replace septic systems & provide for some growth	Design	\$30M
Nevada	Wastewater	Sparks: Sewer main rehabilitation in the City	Design	\$10,240,000
Nevada	Wastewater	Tonopah: Construct additional treatment, storage, & reuse pipeline to serve reclaimed water to the lower zone of town	Design	\$5,622,877
			<b>Total \$ for state:</b>	<b>\$49,737,162</b>
New Hampshire	Drinking Water	UNH/Durham Water Treatment Plant: UNH's water treatment plant was constructed in 1934 and is one of the oldest in NH. The current plant is in a vulnerable location next to the Oyster River and needs to be rebuilt to ensure safe drinking water to the UNH campus and Durham, NH. NHDES is also working with UNH/Durham/Lee on extending a water line to MtBE contaminated properties at the Lee traffic circle. UNH has awarded a design build contract and hopes to start actual construction of a replacement facility in 2017. Jobs will be created during construction and with the purchase of equipment manufactured in American.	Design phase with construction starting in 2017	\$20,000,000
New Hampshire	Drinking Water	Litchfield Merrimack River Crossing: Pennichuck Water Works needs an additional Merrimack River crossing and a new Merrimack River intake and connecting pipe to the treatment plant to ensure that sufficient drinking water is available to connect hundreds of PFC contaminated properties in Litchfield to public drinking water. The upgraded river crossing will also make future water extensions and development projects feasible beyond the immediate needs of the Litchfield connections.	Design phase	\$8,000,000
New Hampshire	Drinking Water	Crown Point Road Area Water Line Project in Rochester: The Crown Point Road area has an MtBE and BTEX contamination problem and a water line is proposed to address that problem. Along the water line path there is a significant problem with high naturally occurring concentrations of metals in groundwater in multiple communities that would also be addressed.	Conceptual design completed	\$4,000,000
New Hampshire	Drinking Water	Southern NH Regional Water System Interconnection Solution: Salem needs to have additional drinking water capacity, Plaistow would like to convert its fire suppression system to a drinking water system and Windham would like to be able to connect the Exit 3 area to a public water system due to low aquifer yields. Severe drought in 2016 has impacted all of these communities and has created the need for a regional solution for the supply of safe and reliable drinking water.	Conceptual design phase	\$14,000,000
New Hampshire	Drinking Water	Epping Water Line Extension: NHDES would like to extend a water line from the Epping Water District to 35 contaminated water wells associated with the Epping Auto Salvage and Tim & Joni salvage yard sites.	Discussion phase	\$2,000,000
New Hampshire	Drinking Water	Coakley Landfill Water Line Project: There is interest in bringing water to properties surrounding the Coakley Landfill superfund site.	Discussion phase	\$1,000,000

New Mexico	Drinking Water	North Star MDWCA: Replace water meters	Pending funding, state funds	\$0.4M
New Mexico	Wastewater	Village of Cimarron: New Wastewater Treatment Plant and Disposal system	Pending Funding, State funds	\$4M
			<b>Total \$ for state:</b>	<b>\$59,655,000</b>
New York	Wastewater	Nassau County is planning design and construction of facilities to divert the treated wastewater from the Bay Park treatment plant to the Cedar Creek treatment plant and its ocean outfall.	Feasibility study to commence in February 2017. Planning design and construction to take five years with completion in 2022	\$354M
New York	Wastewater	Suffolk County is in the process of planning and design to extend sewers to three dense areas and is building a new wastewater treatment plant at the Forge River watershed; additional work includes the replacement of an aging ocean outfall pipe and implementing innovative/advanced onsite wastewater treatment units.	Planning and design are underway for all components except the ocean outfall pipe replacement are ready to go out to contract and notice to proceed by July 2017. County has secured about \$325 million in grants and the rest in loans, but additional funding will be necessary	\$383M
New York	Wastewater	Binghamton and Johnson City have a jointly owned wastewater treatment plant that has been severely damaged by flooding in 2006 and by Hurricanes Irene and Lee. This project will rebuild the plant while adding resiliency to protect against future flood events.	Construction underway; completion expected in August 2017. Awarded Grant.	\$220 M

State	Type	Description	Stage	Amount
New York	Wastewater	Oneida County is commencing a multiphase project that will eliminate sanitary sewer overflows to the Mohawk River, which is of significant environmental concern, while supporting the proposed Marcy Nanocenter. Located at SUNY Polytechnic Institute, the Marcy Nanocenter is a 450-acre greenfield site being developed for the semiconductor industry and is the largest shovel-ready semiconductor site in the world.	Construction is ongoing through 2018. Awarded Grant.	\$117M
New York	Wastewater	The City of Schenectady has experienced sewer overflows during wet weather. This project will repair some sewer lines and a pump station, as well as add additional capacity and upgrades to the treatment plant.	Construction will occur between Spring, 2017 through 2020. Awarded Grant.	\$23.8M
New York	Wastewater	The Village of Wappingers Falls is upgrading their wastewater treatment plant and sewer system. Originally built in the 1960's, the upgraded plant and sewers will provide better service and cleaner water.	Construction at treatment plant is complete; Sewer repair work is ongoing, expected to be complete in Summer 2017. Awarded Grant.	\$20M
New York	Drinking Water	This project involves the consolidation of public water supply to serve contaminated wells as well as extend the distribution system in the Town of Orleans.	Construction through 2018. Awarded Grant.	\$14M
New York	Wastewater	Buffalo Sewer Authority: Planning, design and construction of facilities to treat the discharge from the Smith Street CSO prior to entering the receiving water in order to improve water quality in the Buffalo River.	Construction during 2017 and into 2018. Awarded Grant.	\$12M
New York	Wastewater	The hamlets of Leeds and Jefferson Heights have failing septic systems that have resulted in unpleasant odors, potentially unhealthy conditions, and impacts on both surface and ground waters. This project will construct new sewers that will drain to the Village of Catskill wastewater treatment plant.	Construction ongoing through December, 2017. Awarded Grant.	\$12.6M
New York	Wastewater	The sewers of Ocean Beach regularly overflow when it rains. To solve this problem, the Village will replace the existing sanitary sewers and build a new stormwater collection sewer system.	Construction to start in Spring 2017 and will be complete in the Spring of 2018. Awarded Grant.	\$12.4M
New York	Drinking Water	Construction of water storage tanks and replacement of aged water mains in the City of Poughkeepsie.	Construction through 2018.. Awarded Grant.	\$11.7M
New York	Wastewater	Wayne County's four Lake Ontario bays are Sodus Bay, Port Bay, East Bay, and Blind Sodus Bay. This project will provide sewers to the Port Bay area in the Town of Wolcott, allowing septic tanks to be abandoned and improving the water quality in Port Bay. Wayne County is pursuing similar projects in the other 3 Bays.	Construction to start in April 2017; completion expected in August 2018. Awarded Grant.	\$10.5M
New York	Drinking Water	The Town of Babylon will begin resiliency and redundancy efforts and the upgrading of mains, a new water treatment plant, storage, well, pump station, emergency power as well as the elevating of critical components above flood level.	Construction starting in late 2016.. Awarded Grant.	\$6.9M
New York	Wastewater	The Village of Phoenix is upgrading their wastewater treatment plant and sewer system. Originally built in the 1970's, the upgraded plant and sewers will provide better service and cleaner water.	Construction underway; Completion expected in 2017. Awarded Grant.	\$6.8M
New York	Wastewater	The Villages of Watkins Glen and Montour Falls currently own and operate their own independent wastewater treatment plants, both discharging into Seneca Lake. The plants are in need of significant upgrades. The proposed project will remove the two existing plants from service and construct a single regional wastewater treatment facility at a new location. This project is a regional priority of the Finger Lakes Region. Upon completion, the waterfront property where the Watkins Glen plant is currently located on Seneca Lake will be available for redevelopment.	Construction to begin in Spring 2017; completion slated for December 2018. Awarded Grants.	\$6.2M
New York	Wastewater	The Village of Lake Placid will make improvements to the sanitary sewer system and install stormwater management practices on Main Street. The project will reroute upstream flow to a new sewer main, decommission an old pump station and install green infrastructure to improve water quality in Mirror Lake. Main Street runs along the perimeter of Mirror Lake and is the Village's business area and a major draw for tourists to the Village and the Adirondack region.	Construction scheduled to occur between August 2016 through December 2018. Awarded Grants.	\$6.2M
New York	Drinking Water	New wells and treatment, a new storage tank and a new distribution system in the Town of Oneonta.	Construction start April 2017.. Awarded Grant.	\$6M
New York	Wastewater	Ellicottville is upgrading and expanding their wastewater treatment plant. This will help the growth of the community and the skiing resorts in the region.	Construction underway; completion expected in Spring 2017. Awarded Grant.	\$5.76M
New York	Wastewater	Marcellus is upgrading their wastewater treatment plant. Originally built in the 1970's, the upgraded plant will provide better service and cleaner water.	Construction to commence March 2017; completion in May 2018. Awarded Grant.	\$5.5M
New York	Drinking Water	Replacement of existing water distribution mains, along with associated hydrants, valves and water service connections on select streets within the Village of Wappingers Falls.	Under construction through 2019.. Awarded Grant.	\$5M
