Dear Friend of ECOS:

The **Environmental Council of the States (ECOS)** is pleased to announce an exciting virtual Spring Meeting on March 16-17, 2021 dedicated to the theme of *Navigating Change*.

In a time of mounting environmental and budgetary challenges and transition to a new federal Administration, the ECOS platform for partnership and innovation is more critical than ever. ECOS member agencies are leading the way through strategic alliances; creative use of technology; and the sharing of policies and best practices in air, water, land, PFAS and other emerging contaminants, pandemic adaptation, environmental justice, and more. The 2021 ECOS Spring Meeting will showcase many of these initiatives while marking the start of dialogue and cooperative work with the incoming leadership of U.S. EPA and new leaders in Congress.

ECOS is the national nonprofit, nonpartisan association of state and territorial environmental agency leaders. Because ECOS frequently is asked about opportunities to engage, we wanted to make you aware of **sponsorship benefits** for this well-attended meeting.
