Water Quality Pricing

Conservation Finance Act

“Pay for Success” contracting added to state procurement code for all environment, transportation and agriculture agencies.

Authorizes the state (and counties) to buy ‘environmental outcomes’ as a commodity, including soil carbon, carbon sequestration, and water quality outcomes.

Green infrastructure defined, given a problem-solving commission, and allowed to be the focus of public-private partnerships.

A dozen changes to State Revolving Loan funds to better focus them on equity, lead pipe removal, and nature-based infrastructure.
