State Appropriations

- \$256.5 million to the Virginia Natural Resources Commitment Fund
 - Agricultural Best Management Practices
 - \$21 million for technical assistance
- Multi-year SRF State Match for BIL incremental dollars

Overarching Principles

Virginia General Assembly:

Access to clean, potable water in amounts that will ensure an acceptable standard of living is a necessary human right

It is the policy of the Commonwealth to prioritize universal access to wastewater treatment that protects public health and the environment and supports local economic growth and stability

Opportunity to make these ideals a reality
