Have you met Peter Garcia, Sr.? He's leading our efforts in Northern #NewMexico to ensure residents are made whole and treated fairly after they lost everything due to wildfires & flooding. Secretary Kenney ran into him today and asked if he take a selfie with a hero! #IamNMED

Governor Michelle Lujan Grisham ✓

I've declared a state of emergency in Las Vegas due to burn scar flooding threatening the area's drinking water supply.

We've made \$2.25 million in state funding available to support the city's work to ensure Las Vegas residents continue to have a safe supply of drinking water.

Today I'm in Las Vegas to announce the Wildfire Business Assistance Grant Program, which will provide \$1.5 million in emergency assistance grants (not loans!) to small businesses & self-employed individuals whose businesses have been financially impacted by this year's wildfires.

# President grants governor's request for extension of 100% federal cost share coverage

Aug 24, 2022 | 2022 Wildfires, Press Releases

SANTA FE – Gov. Michelle Lujan Grisham on Wednesday announced that President Joe Biden has granted her request for an extension of 100% federal cost coverage of Categories A & B of Public Assistance under the state's federal disaster declaration for wildfires. The federal government will now cover 100% of the costs for debris removal and emergency protective measures, including direct federal assistance, for a new 90-day period that will extend through November 4, 2022.

"I thank President Biden for his action to ensure that the federal government shoulders the cost of important recovery efforts as New Mexicans continue to be impacted by the aftermath of historic wildfires and flooding in the burn scars," said **Gov. Lujan Grisham**. "I have pushed at every step for the federal government to take responsibility and deliver support to New Mexico, and I will keep pushing to make affected communities whole."
