

2025 ECOS Spring Meeting: *Uniting States & Partners for Environmental Progress*

Renaissance Arlington Capital View Hotel, Arlington, Virginia

March 23-26 2025

#ECOSSpring25

As ECOS converges on the nation's capital for introductions to the new leadership of federal agencies and Congress, our diverse members bring their traditional spirit of bipartisanship to achieve environmental progress. The Spring Meeting will leverage our work with federal, NGO, and private sector partners to attain shared goals for the year ahead. ECOS priorities include building state capacity to lead, advancing water and energy infrastructure through permitting efficiencies and other means, accelerating the circular economy, and ensuring federal facility compliance.

- 1) Except where highlighted in green, all sessions are open to all registrants, including press.
- 2) ECOS encourages a climate of open discussion among all meeting attendees, not only members seated around the plenary table. Please ask a question or offer input during Q&A.
- 3) All meeting space is located on the second floor.
