

ECOS Spring Meeting: Sustainable Management & Critical Mineral Recovery of Renewables

TM

**Ronné Adkins, Ph.D.
Deputy Commissioner
Bureau of Environment**

Sustainable Management

Lithium-ion batteries

- Tractor trailer storage for up to a year
- Capacity of local fire department

Wind Turbine Blades

Carbon Rivers project

Tennessee's Regulatory Strategy

Encouraging Innovation

TN Research, Development & Demonstration Permits

Closing the Gap

Drafting financial assurance rules for Large Quantity
Handlers of Universal Waste

Poll Questions

1. Has your state been approached by companies proposing long-term storage (up to one year) of lithium-ion batteries prior to transport for recycling in another state?
2. Has your state established financial assurance rules to address this lithium-ion battery storage scenario?
